Latvia may be small, but its art is ambitious, grand and uncompromising.

Riga is well-known for having one of the world's greatest collections of Art Nouveau architecture and excellent architects, painters and sculptors. You can enjoy this spirit of creativity and reveal your own talent exploring "Riga by Art"!

We will start the day by visiting the famous Art Nouveau Square where history meets the contemporary. Enjoy the atmosphere of the early 20th century by visiting a characteristic apartment in the Art Nouveau Museum with an authentic interior from 1903, followed by lunch in an atmospheric restaurant filled with an ambience that encapsulates the period.

The day continues with a visit to the pearl of Latvian Art – the National Museum, where the great halls retain the emotions, feelings and secrets of Latvian painters. After the inspiring tours the time is right to reveal your own talents and take on the role of an artist. Under the guidance of professional sculptors, you will have the chance to create your own masterpieces at the Latvian Academy of Art. Live models, your colleague or boss, company logo or even significant products can be turned into gypsum works of art by yourselves. Free your creative side and imagine the possibilities!

After your immersion in classical art, it is time to discover the untamed street-art of Riga, where creativity meets adrenaline. We will go for a "slum-tour" to find wild masterpieces of "illegal street art" and visit places the average tourist rarely discovers. The day finishes with a real graffiti workshop in a funky warehouse, where you will be able to paint the wall by yourselves and afterwards have an underground party with the best DJ's and *hip-hop* artists. Have you ever painted on a real car? You will have the rare opportunity to do it during the party!
