Lithuanians through the ages have been known as selfless warriors. During "Military Arcade" you will be taught to defend yourself and your country in an authentic military atmosphere. If you like to play "Call of Duty" on your PC, forget it – this will feel like a real-life battle!

Soviet style buses will take your group to the countryside. If you think that this will be a safe drive – you are wrong. There will be several military posts on your way, so you have to be ready to show your documents and even shake your bag out in the middle of highway. Are you sure that your documents are valid?

If you are afraid of dogs, then this will be a challenge – at the entrance to military base you will be met and checked by guards with dogs. Having waved goodbye to your belongings and mobile phones, you will put on a very simple military coat and dive into the life of soldier. You will go through a full military training program, including shooting a legendary AK-47 gun. The most challenging training will be a real tank driving while crossing a mine field. However, we are not allowed to tell you anything more about this. If you are ready for challenging yourself and for danger – apply for our military arcade program!
